

Signature COLLECTION
Vertex Blinds

CONTROL YOUR VIEW

Vertex blinds combine the luxurious look of curtains but operate with the versatility of vertical blinds. Vertex is ideally suited for large window spaces and bi-folding doors. This functional blind has three levels of privacy to choose from.

Sheer View

Stripe Royal Blue

Clear View

Classic Shiny Grey

Closed View

Stripe Dark Cream

The wand control allows the soft fabric panels to easily glide along the track to one side enabling full view to the outside.

The collection design has been hand picked to suit the very latest colour trends, and provides full privacy when closed.

KEY BENEFITS

- Ideal for large windows, bi-fold or patio doors.
- Each louvre hangs independently, which enables easy access to outside spaces by being able to walk in-between each louvre.
- Three versatile levels of privacy and shading: “sheer view” allows light to filter in, “closed view” gives complete privacy or “clear view” enables clear outside views when the louvres are stacked to the side.
- The Blindtex vertical headrail has an attractive curved profile, and is available in 6 colour options: White (as standard), Brushed Steel, Graphite, Piano Black, Brown, Champagne Gold.

HEADRAIL COLOUR OPTIONS

WHITE

BRUSHED STEEL

PIANO BLACK

BROWN

CHAMPAGNE GOLD

GRAPHITE

- 5m length tracks available for wider windows and doors.
- Can be used in large spaces, such as hotels, restaurants, or offices as room dividers.
- Child safe with wand operation.
- Motorised Headrail "tilt only" available (not available with Fascia option) with maximum track width being 3m.

FASCIA COLOUR OPTIONS

WHITE

GRAPHITE

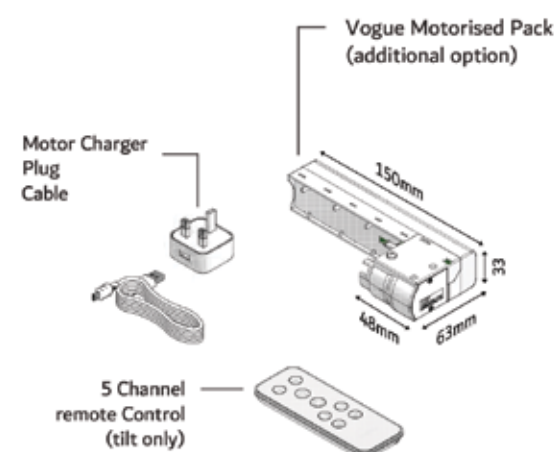

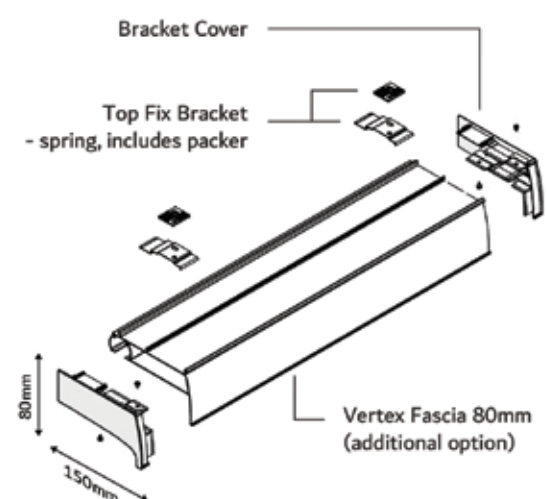

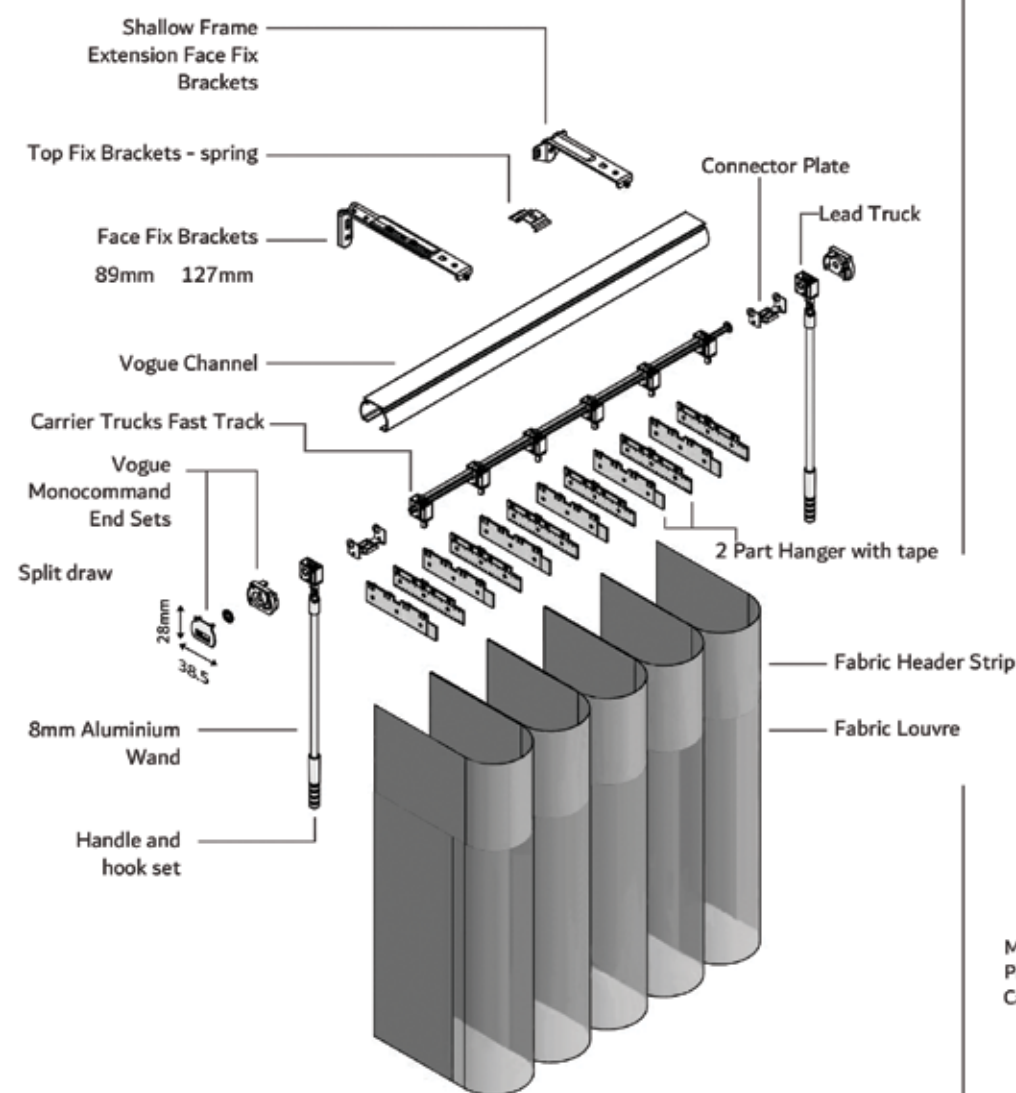

BUNCHING OPTIONS AND STACKING DISTANCES

ONE WAY OR SPLIT BUNCHING		
TRACK WIDTH	ONE WAY STACKING DEPTH	SPLIT STACKING DEPTH (EACH SIDE)
1000mm	225mm	225mm
2000mm	400mm	312mm
3000mm	575mm	400mm
4000mm	750mm	488mm
5000mm	925mm	575mm

SPLIT OPTIONS

Please note we don't recommend split draw as there is no voile in the middle when the louvers are pulled together.

VERTEX BLIND SYSTEM WITH DOUBLE WAND OPERATION

BLINDTEX VERTEX BLIND SYSTEM

Vertex blinds use a headrail made in Britain by Louvolite. The carrier trucks are UV stabilised making them less prone to hardening and going brittle overtime. The gears in the trucks can rotate 185° enabling efficient closure without strain on the mechanism. The 103mm spacing of the louvres is done by stainless steel links rather than the plastic commonly used in cheaper tracks. The hooks are self aligning and can be drawn open via mono wand command or by cord. If cord operation is opted then the tilting of the louvres is done by No6 tilt chain (If the blind is wider than 3 metres the cord option is recommended). There is also an option to tilt the louvres by remote control.

The louvre hangers are made from polycarbonate using an optically transparent hanger suitable for any colour fabric.

The mounting brackets can be top fixed or face fixed. They are powder coated to match the track or end caps.

BLINDS CHARACTERISTICS

Unlike Vertical Blinds Vertex Blinds are soft and not stiffened. It is inherent to have some wave and gaps between louvers. This is usually noticed when tilted fully open. This is not a fault its inherent in the design and therefore not a manufacturing mistake. A slight tilt of the louvers can usually help hide this feature.

CARE INSTRUCTIONS

- Surface dust can be removed by vacuum.
- If dry cleaning or hand washing, the hangers should be removed.
- Re-hang louvres whilst still damp

Dry Clean

Hand Washable

Suitable For Ironing

Do Not Bleach

Classic Snow

Each fabric louvre softly folds to create a uniform appearance and because each louvre hangs independently you can walk through the blind to your outdoor area, without disturbing the ambience in your room.

Stripe Mint

Light is able to filter through by using the wand tilt option, at the same time making this product completely child safe.
